DISCOVER THE ‘MADE TO INSPIRE’ WORLD OF JENSEN OUTDOOR.

With a story spanning more than a quarter century, Jensen Outdoor brings the highest-quality sustainable wood furniture in the world, to your outdoors. We craft our furniture to inspire with excitingly new, yet pleasingly familiar, offerings underpinned by ethical sourcing, unparalleled design, and heirloom-durable quality.

How Jensen Outdoor Crafts the World’s Highest-Quality Sustainable Wood Furniture:

Ipe & Teak: The Heartwood of Our Frames These two titans of outdoor performance bring unique yet similar virtues to the Jensen Outdoor line. Ipe’s durability comes from its density; taking over 100 years of slow growth to achieve maturity. Teak, with its high natural-oil content, withstands outdoor weather conditions with superb stability. Both fine hardwoods have been the choice of top designers, outdoor furniture, flooring, and decking for more than a century.

Inspired Design We believe in refining the rare to fit your life. Our furniture is built to the highest standard for home, design, and contract environments with a broad selection of traditional to modern styles made to inspire. No matter your outdoor space, Jensen’s award-winning designs cater to your dining, lounging, and bar needs.

Sustainable Sourcing 100% of the timber Jensen has harvested is Forest Stewardship Council® (FSC®) certified to ensure the long-term well-being of wildlife, dry tropical forest and the people who depend on them. Small footprint harvesting techniques protect over two million acres of forest in Bolivia alone, harvesting only the stable heartwood portion of trees that have grown for more than a century allowing for new forest growth.

Dana: “The Chair” Redefined in Teak

Jensen Outdoor is proud to unveil the Dana dining arm chair, a masterful blend of mid-century Danish design and modern craftsmanship in FSC®-certified teak wood.

Designed by Alan Morley, the Dana collection pays homage to Danish classics, specifically inspired by the iconic “The Chair” by Hans Wegner. Dana captures the essence of that era’s design - simple yet sophisticated, bold yet balanced.

About Jensen Outdoor

Our administration, warehouse, and cushion manufacturing are in Sandston, Virginia. The Ipe timber factory is in Santa Cruz, Bolivia, woven material production is in Cebu, Philippines, and Teak factory is expertly crafted in Phu Yen Province, Vietnam. Jensen Outdoor supplies luxury wood furniture to the North American market.

OUR COMMITMENT TO SUSTAINABLE FURNITURE

Jensen Outdoor maintains over 2 million acres of FSC®-Certified pristine dry-tropical forest in Eastern Bolivia.

Since 1994, Jensen Outdoor has been a leader in the outdoor furniture industry by receiving one of the first, and annually re-certified accreditations from the Forest Stewardship Council (FSC®). This sustainable forest management provides protection for more than 2 million acres of Bolivian forests alone.

Renowned as the gold standard in forestry certification, FSC®, has established strict environmental and social standards for responsible forest management and harvesting practices, including the Chain of Custody (COC) certification for those forestry operations that track their furniture's wood back to the harvest area where the timber fell to when it arrives in our Sandston, USA warehouse as furniture. FSC® only certifies such organizations that meet their certification requirements.

Today, Jensen Outdoor's furniture exclusively features FSC®-Certified timbers preserving millions of acres of dry tropical forests, along with the welfare of forest workers and their families, for generations to come.

The mark of responsible forestry

Impervious Ipe Wood

Durability Through Density

DEEP CHOCOLATE-BROWN FINISH

Ipe, pronounced 'EE-Pay', is a Bolivian hardwood prized for durability through density; taking over 100 years to achieve maturity.

- **Performance:** Extremely dense, Ipe is naturally heirloom durable in outdoor uses.
- **Colorway:** Deep chocolate-brown
- **Finish:** Penofin® Verde stain
- **Weathering:** Ages to a silver patina
- **Care:** Easy to restore the 'as new' finish
- **Sustainability:** 100% FSC®-certified

Timeless Teak Wood

Light and Strong

BRIGHT GOLDEN-YELLOW FINISH

Teak, sustainably farmed in Brazil and Costa Rica, has a high natural-oil content, withstanding outdoor weather with superb stability.

- **Performance:** Light, strong, and full of oil that naturally repels moisture outdoors.
- **Colorway:** Bright golden-yellow
- **Finish:** Natural oil from the wood itself
- **Weathering:** Ages to a silver patina
- **Care:** Easy to care for
- **Sustainability:** 100% FSC®-certified

The stain applied to Ipe and the oil inherent in teak may leave a faint imprint on the back of cushions that rest on wood frames. Our cushions are designed for a perfect fit in a single orientation, meaning no transfer marks will be visible and can be treated to soften the appearance.

DESIGNS MADE TO INSPIRE

Jensen Outdoor strives to find design thinking that's 'Outside of Ordinary'.

When we begin the work of designing a new furniture collection, there is a collaborative process that connects the forestry operations in Bolivia, to our design teams in the United States and Europe. What excitingly new, yet pleasingly familiar, idea can we bring to the outdoor market that best accentuates the striking beauty of the sustainable materials we have to work with? Over the years our team has continued to sustainably innovate our designs and craftsmanship to meet with an ever-changing need.

Every Jensen Outdoor item is inspired by nature, honed to perfection by the pens of award-winning designers, and tested with our Virginia-based leadership team to ensure that you can feel as comfortable sitting in a Jensen Outdoor chair as you can feel a sense of pride while admiring it through your kitchen window.

Once Jensen Outdoor has determined the inspiration of our next collection, we engage with the top award-winning European and North American designers who specialize in outdoor and wood furniture to further hone our furniture into the excitingly new, yet pleasingly familiar designs that make your patio shine.

From pen to wood our team of expert craftsman, sustainably located near the source of our materials in Bolivia, bring these designs to life with rigorous rounds of testing and revision to ensure the structural stability and design aesthetics are just right.

Woven Fabric **Sunbrella®**

CUSHIONS, PILLOWS

For decades, Sunbrella® has been the fabric of choice for Jensen Outdoor, offering the luxury of carefree comfort and distinctive style in any environment. Each 100% solution-dyed acrylic fabric is designed for exceptional performance whether indoors or out.

Ultraleather **Ultrafabrics®**

EXCLUSIVE TO THE TEMPO COLLECTION

The contemporary Italian aesthetic of Tempo offers carefree outdoor living with premium, waterproof Ultraleather® performance vinyl fabrics with the look and feel of genuine leather, covering multi-layered performance cushions resting upon a powder-coated aluminum base insert, all secured to a sturdy frame crafted from 100% FSC®-certified Ipe timber.

Woven **Viro® Fiber**

SURFACES, SEATING BASKETS

Nature-safe woven Viro® Fiber is perfectly suited to outdoor use through superior resilience, indelible color fastness, and stylistic allure. Viro® Fiber is expertly handwoven around commercial-grade powder coated aluminum frames allowing the fiber to ergonomically conform to your shape.

IPE WOOD

Ipe ages to an elegant silver patina over time and may be restored to an 'as new' finish at any time.

Ipe (pronounced "EE-pay") is one of the densest premium hardwoods in the world. Many notable buildings and bridges are made of Ipe timber, including the Paris Soferino Bridge, the Atlantic City (NJ) Boardwalk, and many New York City park benches.

Ipe trees are at least 100 years old when they are harvested from the forests of Eastern Bolivia. The environment of tropical dry forests causes trees to grow slowly, which contributes to their strength, density and high wear durability. The advanced age and large diameter of the trees allow Jensen to produce its furniture with 100% solid heartwood. The heartwood portion of the tree is structurally stable and naturally resists swelling and contraction caused by seasonal changes in outdoor environments.

A strikingly beautiful chocolate brown timber when new, Ipe ages gracefully to an elegant silver patina after six to twelve months outside in the sunshine and moisture. While all wood oxidizes to a silver patina if left to weather naturally, Ipe is one of the rare timbers that can be restored to its original color at any time simply by cleaning and applying Penofin Verde, a specialized oil finish available from Jensen Outdoor.

The Paris Soferino Bridge's walkway is made of Ipe wood.

Stages of Ipe Finish:

New Ipe

Weathered

FINGER JOINT

Also known as a comb joint, is a joint made by cutting a set of complementary, interlocking profiles in two pieces of wood, which are then glued. The cross-section of the joint resembles the interlocking of fingers between two hands, hence the name "finger joint". The sides of each profile increases the surface area for gluing, resulting in a strong bond.

BOX JOINT

A joint made by cutting a set of complementary, interlocking profiles in two pieces of wood, which are then joined and glued. The glued box joint has a high glued surface area resulting in a strong bond.

TURNED WOOD

Turned wood, often a furniture leg or foot, is created by rotating a wood dowel on a lathe. With Ipe wood this creates a unique look and smooth-as-glass finish.

KILN DRIED HEARTWOOD

Jensen Outdoor's wood furniture is made from the heart of the trees that are harvested. The heartwood portion of the tree is the most dimensionally stable and is a significantly greater portion of slow-growing, century old trees.

Our timber is carefully kiln dried for periods ranging from four to eight weeks to reduce the moisture content to 12%, which is perfectly suited to allow our furniture's wood joinery grow more stable when exposed to higher levels of humidity when in use outdoors.

TEAK WOOD

The high natural-oil content of FSC®-certified Teak withstands outdoor weather conditions with superb stability.

Farm raised for 50 years until mature in well-managed plantations in South America, Teak is one of the most sought after timbers for high end furniture production. With its high natural oil content, teak withstands extreme weather conditions and is extremely stable once properly seasoned by kiln drying. The teak we select is symmetrical in shape with limited surface defects.

Teak arrives as a brilliant yellow wood and is particularly sought after for the elegance of the soft silver-tone finish that it weathers to over time.

Introduced for 2023, the Savannah collection is a welcome Teak addition to the Jensen Outdoor line.

Stages of Teak Finish:

New Teak

Seth Alguire
High Point, USA

MIX, FORTE, JETT

A graduate of Kendall College of Art and Design with a Bachelor of Fine Arts in Industrial Design, Seth Alguire lives his passion for contemporary solutions to age old design problems as the senior designer at HTK Design.

Chris & Jon Panichella
Carlsbad, USA

SKY, INNOVA

Design duo, Chris & Jon Panichella approach Industrial Design through authentic collaborations between the furniture and the user. Since 2006, Achella Design has crafted fine furniture elegantly fitted to the end user's needs.

Alan Morley
Brighton, England

SORRENTO, DANA

Alan began his career as a furniture draughtsman and cabinet maker before launching his contemporary design business in 1983. Alan is the resident designer at Jensen Outdoor's sister company, Alexander Rose.

WOVEN VIRO® FIBER

Nature-safe woven Viro® Fiber has superior resilience, indelible color fastness, flexibility and stylistic allure.

Made of high-density polyethylene, Viro® Fiber is completely colored throughout, smudge-proof, and resistant to the effects of significant temperature variations. How significant? Jensen Outdoor fibers are specifically designed and engineered for outdoor use; insensitive to temperature differences ranging from -90 to +175 degrees Fahrenheit.

Jensen Outdoor fibers resist fading, even if exposed to extreme weather conditions during summer and winter. The fiber has been proven in laboratory tests to withstand continuous UV exposure for 3 years, far beyond the experience your furniture will have during the course of normal use.

To achieve the distinctive woven patterns featured in Jensen Outdoor's collections, each frame is expertly handwoven around commercial-grade powder-coated aluminum frames allowing the fiber to ergonomically conform to your shape, providing supreme comfort and sublime relaxation. This top-of-the-line woven material has become a favored feature in many Jensen Outdoor collections, including Coral, Vintage, Forte, Nest and Unicon. In the outdoor industry, Viro® Fiber continues to serve as a source of inspiration for collectors and aficionados who prize its long-lasting durability that is beautifully suited to any outdoor landscape.

Viro® Fiber is crafted to be environmentally friendly and 100% recyclable. This ecologically sensitive fiber is created from high density polyethylene, which is free from PVC and entirely non-toxic. Even when badly burned, no toxic substances are ever produced for complete peace of mind for years of safe enjoyment with the whole family.

All the Viro® Fiber frames you see in the Jensen Outdoor line are woven by hand in our Cebu, Philippines factory.

Povl Eskildsen
Aarhus, Denmark

CORAL, VINTAGE, RICHMOND, FOUNDATIONS
Furniture design came to Povl early, first from his family's furniture factory, then from Aarhus School of Architecture where he earned his MA in Furniture Design in 1986. Povl delights in crafting elegant transitional designs that fit well within any space, indoors or out.

Dick Björk
Helsingborg, Sweden

OPAL, UNICON
Dick grew up making furniture at his father's side in his furniture shop in Sweden, then went on to graduate from the esteemed Trateskniska Skolan in Helsingborg. Dick's designs offer stately transitional elements blended elegantly with clean lines to create understated outdoor furniture masterworks.

Edi & Paolo Ciani
San Giovanni de Natisone, Italy

NEST, HARMONY, TOPAZ, TEMPO, INNOVA
Brothers Edi and Paolo have been collaborating in design since 1992, both having advanced degrees in technical design. The pair are known in the industry for sweeping modern and playful designs that comfort as they cradle.

ULTRAFABRICS® ULTRALEATHER

Exclusive to the Tempo Collection, Ultraleather is a marine-grade weatherproof fabric made by Ultrafabrics® that has a 100% polyurethane surface on a rayon backing.

Ultraleather has a luxurious look and feel, similar to European calfskin. It is also more durable than real calfskin and has better resistance to punctures, snags, and rips. Ultraleather is also resistant to soils and stains.

Ultrafabrics uses a proprietary Takumi™ Technology that includes polycarbonate resins in its manufacturing process. Ultrafabrics' materials are resistant to temperature fluctuations and fading, and they naturally dissipate heat and moisture to maintain a neutral body temperature. Ultrafabrics' unique construction and high-quality ingredients allow the material to withstand frequent cleaning, sun exposure, and rain.

It has a natural grain appearance and is soft and supple to the touch. Ultraleather is designed for high-performance applications and has a 400,000 double rubs rating for tear strength and abrasion resistance.

Ultrafabrics® Ultraleather defends against sunlight, moisture and other elements, providing optimal protection and durability. Innovative in both style and functionality, this fabric features moisture repellency, solar endurance, colorfastness, climate control technology, and EPA-registered defense against microbes, bacteria and mildew.

Ultrafabrics® excels in bringing luxurious comfort you can set and forget outdoors to the Tempo collection for Jensen Outdoor.

John Caldwell
Pasadena, California

INNOVA, FOUNDATIONS

John Caldwell's break into freelance furniture design was in Los Angeles in the late 1950's.

Caldwell has designed outdoor furniture, office furniture and accessories, umbrellas, lighting, and ceiling fans for the United States and world markets. He also has taught and lectured on design for 20+ years at various California colleges, including Long Beach State, Pasadena City College and the Art Center College of Design.

Frederic Doughty
Philadelphia, Pennsylvania

LAGUNA, SAVANNAH

With furniture designs that are characterized by clean, timeless lines and comfortable proportions, Fred Doughty's award-winning style has evolved from the indoors out in a career spanning more than two decades.

Having studied design at the Rhode Island School of Design, and then at the Art Center College of Design in Pasadena, CA, Fred became Design Director of design consultant companies Brown Jordan Furniture and Price Pfister Faucets. As the principal of Premises Design, he has won three Pinnacle Awards from ASFD, as well as numerous awards from IIDA and ICFA.

SUNBRELLA® FABRICS: SOLUTION-DYED ACRYLLIC

Sunbrella® has been the fabric of choice for Jensen Outdoor, offering the luxury of carefree comfort and distinctive style in any environment. Each solution-dyed acrylic fabric is crafted with remarkable attention to detail and designed for performance whether indoors or out.

Sunbrella® is widely considered the *crème de la crème* of solution-dyed acrylic fabrics for outdoor use. One of its most appealing qualities is the impressive ability to maintain vivid colors year after year. While natural fibers tend to dramatically lose their vibrancy with time and wear, Sunbrella® fabrics made from synthetic threads are engineered to retain their colors longer and resist the natural elements better.

Sunbrella® fabric is specially dyed using a proprietary process that ensures that each and every string is vibrantly colored all the way through. This is in stark and surprising contrast to many other kinds of fabrics, whose colors only coat the surface of the threads and wear away over time. Any concerns about fading completely fade away as the fabric exhibits impressive resistance to UV rays, rain, temperature, and time.

For a full video walkthrough of the latest design trends in outdoor fabrics from the experts at Sunbrella® watch our “Outdoor Confidential” educational series on YouTube:

FOUNDATIONS

Ipe or Teak (Mosaic Coffee Shown)

IPE OR TEAK

A table collection with new introductions in Ipe wood for the 2024 season, Foundations is the essential dining and accessory tables collection from Jensen Outdoor. Foundations is ready to perfectly pair with any furniture piece of the same teak or Ipe wood species.

DANA

Available in Teak

TEAK WITH TESLIN CORD SEAT

Designed by Alan Morley, Dana pays homage to Danish classics, specifically inspired by the iconic “The Chair” by Hans Wegner. A grade-A teak frame pairs to a teslin handwoven cord seat. The contour-shaped back and arms are joined to finely turned legs with contrast-colored wedge biscuit joints.

SAVANNAH

Available in Teak

TEAK AND SUNBRELLA® FABRICS

The craftsman Savannah deep seating and dining collection is an homage to modern Americana. The seat frame is robustly crafted from 100% FSC®-Certified teak timber and the outdoor cushions are enveloped in your choice of Sunbrella® fabrics.

INNOVA

IPE WOOD AND SUNBRELLA® FABRICS

Jensen Outdoor is proud to introduce the award-winning Innova collection of modernized classic Ipe-wood designs. Innova brings together the brightest design minds to answer the question:

*“How can classic shapes
be reimagined for modern tastes?”*

First is the Trellis modern lounge chair, which has won the prestigious 2023 International Casual Furnishings Association Design Excellence Award in the lounge seating without cushion category. Conceived by Italian designers Edi & Paolo Ciani, Trellis sets the tone for the future of outdoor living.

Next from the Ciani's is the Whisper 72" backless bench, perfect for quick (and stylish) breezeway chats while sharing a satisfying glass of sherry.

Chris & Jon Panichella welcome the Aurora dining arm and side chairs, featuring comfortable broad-slatted dished seats and backs, with tactile Ipe armrests for the dining armchair.

Finally, meet the Melody 43" backless dining bench from the esteemed design house of John Caldwell, which merges geometry and comfort with floating seat panels. The square support base rises from the strong sled foot, of this cleverly designed, and seemingly, lighter-than-air frame.

- Updated (Modern) Styling of Classic Forms
- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Charcoal gray zinc-plated steel hardware
- Option of cushions in Sunbrella® fabrics
- Lounging, dining, and accessory frames

The Innova collection Trellis lounge chair is a modern interpretation of a classic Adirondack chair.

Whisper 72" Bench

A Part of the Innova Collection

IPE, OPTIONAL SEAT CUSHION

The Whisper backless bench has a timeless trapezoidal side silhouette for stability, with elevated seat ends forming a camber that supports the 72-inch span. Available with optional trapezoidal prism shaped cushion, perfect to nestle between the raised sides.

Aurora Dining Chairs

Innova Collection -- Arm and Side

IPE, OPTIONAL SEAT CUSHION

A fine upright and modern sitting pair of dining arm and side chairs with tactile armrests and dished seats, the Aurora dining chairs offer an optional dished seating cushion but are more than comfortable for long dinners on the patio sans cushion.

Melody 43" Bench

Innova Collection -- Backless

IPE, OPTIONAL SEAT CUSHION

With a square sled base supporting comfortably convex "floating" seat slats, the 43" Melody bench pairs perfectly with the Foundations 53" Square Dining Table to seat eight comfortably. Available with optional saddle-shaped cushions for added comfort.

TEMPO

IPE WOOD AND SUNBRELLA® FABRICS

Awarded “Best of Show” for Design Excellence by the ICFA (International Casual Furnishings Association) The all-weather tempo collection in Ultrafabrics® is a show-stopper.

Tempo is the award-winning Italian-designed, all-weather collection you can set and forget outside without the concern of moving your cushions whenever overcast skies turn to rain.

Offered in summit cream and walrus gray colorways of Ultrafabrics® marine-grade animal-free leather, the frame is elegantly crafted from 100% FSC®-certified solid Ipe timber.

The deep, chocolate-brown color of Ipe timber can be enjoyed for generations or allowed to transform with sun and time into a silver patina that highlights its natural beauty.

Tempo embodies Italian elegance expressed in the soft curves of the seat being cradled by the firm lines of the Ipe wood frame. Additionally, the contrast-stitched seam adds a pop of interest to an already interesting collection.

- Modern Italian Design
- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Ultrafabrics® Ultraleather Waterproof Fabric
- Hidden Hardware

The Tempo collection has marine-grade animal-free leather Ultrafabrics® Ultraleather on the seat and back. →

GLOW

Available in Ipe-Look Cement Resin

- 40,000 BTU **Commercial-Grade Propane Burner**
- Ipe Wood-Look **UV Print Cement Resin Finish**
- Deep-Gray Stainless Steel **Burner Cover**
- Aesthetic **Amber-Colored Fire Glass**
- Light-Gray Logo **All-Weather Cover**
- Pairs with all **Ipe Wood Furniture**

HERITAGE

IPE WOOD AND SUNBRELLA® FABRICS

The pride of Jensen Outdoor, Heritage (formerly Classic Ipe) embodies the legacy of our architecturally-inspired pursuit to bring value to every facet of the furniture we source, design, and craft.

Designed specifically for the unique qualities of its namesake, the Heritage collection features traditional cottage styling masterfully applied to suit deep chocolate-brown Ipe hardwood.

- Traditional rounded cottage styling
- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Yellow zinc-plated steel hardware
- Option of cushions in Sunbrella® fabrics
- Lounging, dining, and accessory frames

The Franklin dining chair is a comfort-first addition to the Heritage (formerly Classic Ipe) collection.

CORAL

Available in Natural and Gray

IPE, VIRO® FIBER, SUNBRELLA®, & ALUMINUM
Coral features a transitional woven design with Viro® Fiber in your choice of natural or gray. The handwoven fiber is expertly fitted around an aluminum frame with deep chocolate brown accents of smooth-touch FSC®-certified Ipe timber at the arms and base.

FORTE

Available in Tri-tone Sand

IPE, VIRO® FIBER, SUNBRELLA®, & ALUMINUM
Forte offers transitional design versatility through tri-tone Viro® Fiber weave on a turned, FSC®-certified Ipe timber frame. Enhance Forte's comfort and beauty with weather-resistant Sunbrella® fabrics to perfectly suit your outdoor decor.

HARMONY

Available in Charcoal

IPE, ALUMINUM, & SLING
Harmony features a contemporary powder-coated aluminum frame, tautly draped with supportive sling seating and deep chocolate brown accents of FSC®-Certified Ipe wood on the arms and table tops.

MIX

IPE WOOD AND SUNBRELLA® FABRICS

Introduced for the 2022 season, the luxury of choice has arrived with the modular Mix Ipe sectional and deep seating collection from Jensen Outdoor.

Crafted with clean lines and soft radiused edges, Mix's sleek 'window pane' FSC®-certified Ipe wood seat frames offer a low frame-bed with elegantly tapered legs. The frame supports broad, yet supple, multi-layer performance foam cushions fitted with your choice of Sunbrella® fabrics.

- Modern clean styling
- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Black zinc-plated steel hardware
- Cushions in Sunbrella® fabrics
- Lounging, dining, and accessory frames

Mix frames are designed to be modular, allowing you to create shapes to fit your space.

JETT

Aluminum Available in Black

IPE, SUNBRELLA®, & ALUMINUM

The sophisticated Jett collection blends FSC®-Certified Ipe timber with a black powder-coated aluminum frame. Designed for lounging in any landscape, multi-layer cushions are covered in your choice of all-weather Sunbrella® fabrics.

LAGUNA

Available in Ipe

IPE & SUNBRELLA®

Contemporary comfort defines the fresh design of Laguna. The collection incorporates the touchstone of clean, classic lines in Ipe wood and supremely comfortable Sunbrella® cushions to make this deep seating and dining collection a welcome addition to any landscape.

NEST

Available in Metro Gray

IPE, VIRO® FIBER, SUNBRELLA®, & ALUMINUM

Retro cool with casual warmth, Nest's Viro® Fiber weave artistically patterns into an embossed gray blend. The fine fiber is handwoven with care and wrapped around a powder-coated aluminum frame that is gracefully balanced by a FSC®-certified Ipe timber base.

SKY

IPE WOOD AND SUNBRELLA® FABRICS

The Sky collection brings a fresh allure to outdoor living from designers Chris & Jon Panichella.

Escape to the transitional world of Sky Ipe deep seating and dining seating collection from Jensen Outdoor. The clean, modern lines and soft, transitional details of Sky are masterfully expressed in the artfully-tapered contours of 100% FSC®-certified Ipe timber frame.

- Flared arm and back rails
- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Black zinc-plated steel hardware
- Cushions in Sunbrella® fabrics
- Lounging and dining frames

Sky frames are designed to be transitionally elegant allowing you to blend them with any style. Notice the flared arm rests and fitted cushions (at right).

OPAL

Available in Ipe

IPE & SUNBRELLA®

A jewel in the Jensen Outdoor family, the Opal collection dazzles with beauty and comfort in any landscape. Opal's signature detail, an open "O" on the upper back of each seating frame, resembles the circular shape of the precious stone that shares its name.

RICHMOND

Available in Ipe

IPE & SUNBRELLA®

Richmond features a traditional design crafted in Ipe wood. Gatherings are effortless with an array of outdoor dining and seating selections, including dining, rail, and chat tables and extensions, along with benches, counter height, side and arm dining chairs.

SORRENTO

TEAK WOOD AND SUNBRELLA® FABRICS

FSC®-certified Teak debut's with the Sorrento sectional and dining collection.

Teak's natural elegance, immense strength, and extraordinary durability makes it one of the world's most sought-after hardwoods for luxury outdoor furniture. Sorrento features a modern wood-forward design of sustainably-sourced Teak crafted to create modular home entertaining spaces from sectionals to traditional deep seating.

- Modern Interpretation of Neo-Classical Designs
- FSC®-certified teak wood frames
- Smooth-as-glass sanded wood finish
- Hidden Metal Hardware
- Cushions in Sunbrella® fabrics
- Lounging and dining frames

Sorrento frames are designed to be modular, allowing you to create shapes to fit your space.

TOPAZ

Available in Beige or Brown Sling

IPE & OUTDOOR SLING

Topaz features FSC®-Certified Ipe timber with the chic allure of tautly wrapped outdoor sling in beige or brown colorways for comfort without the cleanup. Tables are supported by the stylized display of conically-arranged angular feet with an elegant yet functional design.

UNICON

Available in Bronze weave

IPE & VIRO® FIBER

Unicon features a timeless design with bronze colored woven Viro® Fiber, paired with a frame crafted from FSC®-Certified Ipe timber. This dynamic pair ensures you will be able to enjoy comfortable dining seating without having to cover your cushions when not in use.

VINTAGE

Available in Roan weave

IPE, VIRO® FIBER, SUNBRELLA®, & ALUMINUM

Vintage features a shimmering roan Viro® Fiber weave coupled with a powder-coated aluminum frame. This antique-inspired collection adds accents of FSC®-certified Ipe timber for a refined richness to table tops, chair arms and supportive feet of the frames.

CARE PRODUCTS

FOUR LEVELS OF OPTIONAL CARE

Use genuine Jensen Outdoor care products to keep your furniture in tip-top shape all year long. Our durable materials offer four levels of optional care for your convenience:

Always read the full directions on the care product package before use.

Level 1 Protect
Protect new or newly cleaned furniture.

Wood Shield
By Jensen Outdoor *All Wood*

Fabric Protector
By Jensen Outdoor *Cushions*

Level 2 Clean
Clean up spills, dirt, or dust.

Pro-Tech Wood Cleaner
By Penofin® *All Wood*

Fabric Cleaner
By Jensen Outdoor *Cushions*

Level 3 Restore
Restore the 'as new' appearance of Ipe wood.

Pro-Tech Wood Brightener
By Penofin® *Ipe Wood*

Ipe Aftercare Kit
By Penofin® *Ipe Wood*

Level 4 Revive
Revive Ipe wood from troublesome stains.

Ipe Restoration Kit
By Penofin® *Ipe Wood*

Verde Oil Finish
By Penofin® *Ipe Wood*

CARE TIPS

Wood

Ipe and Teak are natural materials that when left alone outdoors will weather to a graceful silver-tone finish. The look and feel of wood is a key appeal to owning natural outdoor wood furniture. To keep yours looking it's best consider these easy care tips:

1. Apply **Wood Shield** to protect against water and food stains, then enjoy your set for the season.
2. As spills, dirt, or dust occur wash with a soft towel and mild dish soap, then rinse clean with water.
3. Teak is meant to be enjoyed with a well-aged silver-patina, as needed repeat steps 1 and 2.
4. Ipe may also be enjoyed with a silver-patina or may be restored to it's 'as new' color by cleaning and applying **Penofin® Verde** as directed.

Cushions

Sunbrella® performance fabrics are made with 100% solution-dyed acrylic to stay color-fast year after year. To keep your cushions in tip-top shape:

1. Apply **Fabric Protector** to cushions to make them stain and mold repellent.
2. It's recommended to place your cushions in a dry, covered space when not in use.
3. As spills, dirt, or dust occur wash with a soft bristle brush and **Fabric Cleaner**, then rinse clean with water.

Weave

Handwoven Viro® Fiber is made for outstanding durability. To maintain your woven surfaces:

1. To remove dust, simply clean with a bristle brush and lightly rinse with water as needed.

The look of Ipe wood before and after being restored to an "as new" finish.

PRESSURE WASH

Never pressure wash your furniture as there is a high risk of damage to the finish. Always follow all directions as listed on the care supply packaging.

WINTERIZE

Ipe & Teak withstand the cold temperatures of winter just fine. You can leave your furniture uncovered all winter and clean or restore them in the spring for the finish you desire.

Cushions should be cleaned and dried completely before being stored in a dry-ventilated space to keep the wear of winter (and rodents) away from your beautiful Sunbrella® fabrics.

HAND WASH

We recommend that you only hand wash your cushions, because when the cover is removed, the foam expands, making it difficult to get your covers back on to your cushions.

IPE VERSUS TEAK

Both materials are well suited to the outdoors, however because Teak has a natural oil that provides it's water resistance, it will go gray over time as it ages.

Ipe however, has a Penofin® Verde stain applied to it which can be re-applied at any time to bring back the original finish.

jensenoutdoor.com/product-care

LIMITED WARRANTY

EFFECTIVE (08/15/2023)

Jensen Leisure Furniture, LLC d.b.a. "Jensen Outdoor" warranties to the original purchaser ("Purchaser") that, for a period of five (5) years of residential use or for a period of three (3) years of commercial use from the date of purchase (except as specified), under normal use and service conditions, Jensen Outdoor furniture shall be free from defects in workmanship or materials.

This warranty shall only be applicable and enforceable in the United States of America and Canada.

WOOD FRAMES

Wood frames are warranted to not break or crack for five (5) years of residential use or three (3) years of commercial use. Wood frames require user maintenance and changes in the color of the wood are normal and should be expected to occur over time as the natural material ages. Therefore, fading and color changes in wood frames are not covered by this warranty. Small checks in the surface (minus-cule openings of the wood grain at the ends when exposed to the elements over time) are natural and in no way affect the structural integrity of the frames. Superficial checks are not covered by this warranty. Components such as plastic foot glides are subject to wear and tear and are not considered part of the frame.

METAL FRAMES

Welds and joints are warranted to not break or crack for five (5) years of residential use or three (3) years of commercial use. Powder coat finish is warranted to not peel for five (5) years of residential use. Rust or corrosion of metal components, when placed in close proximity to known salt environments, is not covered by this warranty.

HARDWARE

Hardware used in the production or assembly of Jensen Outdoor furniture is warranted to not break for five (5) years of residential use or three (3) years of commercial use.

WOVEN FIBER

Woven fiber is warranted to not fail structurally, crack, unravel, fade excessively, or rot for five (5) years of residential use or three (3) years of commercial use.

SLING FABRIC

Sling fabric is warranted from tears and becoming non-functional because of loss of dimensional stability from exposure conditions including sunlight and normal atmospheric conditions for three (3) years of use. Abnormal or excessive discoloration and fading are covered.

CUSHION & PILLOW FABRIC

Cushions and pillows are warranted to be free from workmanship or material defects for one (1) year from purchase. The fabric on cushions and pillows is warranted to not tear, or fade excessively for one (1) year from purchase.

HIGH-PRESSURE LAMINATE (HPL)

High-Pressure Laminate (HPL) is warranted to not fail structurally, crack, fade excessively, or rot for five (5) years of residential use or three (3) years of commercial use.

WARRANTY FORM

jensenoutdoor.com/warranty

For service under this warranty, the retailer or designer will need to submit a warranty claim on their customers' behalf.

Scan the QR code to submit all of the required details with the Jensen Outdoor warranty form.

EXCLUSIONS

Proper maintenance of your product is required to support the benefits of this warranty. This warranty is voided in the event that there are indications of abuse or neglect to the furniture. This warranty does not apply to normal wear and tear effects on Jensen Outdoor products, which are received by regular use of the products.

This Limited Warranty does not apply to damage resulting from normal wear & tear, handling, improper or lack of use, care, or maintenance, abuse, accident, alteration, tampering, natural variation of color, texture, or grain and aging of natural products, or use in violation of applicable laws, rules, regulations, and ordinances.

Customer's Own Material (COM) and any other material are not covered by this warranty.

Repair or modification by anyone other than Jensen Outdoor or an approved agent of Jensen Outdoor voids the warranty. Additional exceptions may apply. Freight damage is not covered under our Jensen Outdoor Limited Residential Warranty.

Jensen Outdoor expressly disclaims all other warranties, express or implied, statutory or otherwise, including but not limited to, any warranty of merchantability, title, non-infringement, or fitness for a particular purpose.

We reserve the right to discontinue or modify any product line or color without notifying the Purchaser. If the original product is not available, we retain the right to choose to provide replacement material of equal value or quality.

No person or entity is authorized by Jensen Outdoor to make (and Jensen Outdoor shall not be bound by) any statement or representation as to the quality or performance of Jensen Outdoor products other than as contained in this warranty.

This warranty may not be altered or amended except in a written instrument signed by Jensen Outdoor and Purchaser. Under no circumstances will Jensen Outdoor be liable for special, incidental or consequential damages, whether such damages are sought in contract, in tort (including but not limited to negligence and strict liability) or otherwise, and Jensen Outdoor's liability with respect to defective products shall in no event exceed the replacement of such products or return of the purchase price, as described above.

Some states do not allow the exclusions or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state.
